

# **“ICE” Your Cell Phone (In Case of Emergency)**

## **It could save your life and notify loved ones!**

Your cell phone can help emergency responders and healthcare workers to identify you and notify your loved ones.

Just program your cell phone’s contact list with the codeword  
**“ICE” (In Case of Emergency):**

There are two ways to do this, and it is recommended that you do both.

### **Create ICE Entries in Your Phone’s Contact List**

Simply add the word **ICE** in the Name, Title, Company, or other field that displays on your contact list; or

1. Open your cell phone contact list to create a new entry.
2. Enter the word **ICE** with the name and number of the person you would like contacted in an emergency.
3. To list multiple contacts name the entries **ICE 1, ICE 2, ICE 3.**

Examples: **ICE 1-Husband-Tom**  
**ICE 2-Mother-Mary**  
**ICE 3-Son-Joe**

### **Create an ICE Group**

Create a new Group, and add to that group every person you have flagged with the **ICE** tag.

**Emergency workers look for the  
codeword “ICE” when they  
turn on your phone.**

**Help them help you!**

**Program your phone today!**

**The purpose of this program is  
to assist emergency workers and  
first responders.**

**All others should call 9-1-1  
when encountering an  
emergency situation.**

**Be Safe. Be Healthy. Be Ready.**
